

# PerformMD™ from Presidiohealth

We take care of your business,  
so you can take care of your patients.

*Imagine* a web service that consolidates all of your patient and business information in one place so you can easily manage all of your patient charts, view direct coding feedback and tips and optimize your documents to completion for full reimbursement. *Our anytime, anywhere* physician-centric design reduces your workload, simplifies your coding to billing process and captures more revenues, faster.

Don't just work harder, work smarter.

## CURRENT PHYSICIAN SUCCESS:

**\$550 per physician shift increase in net revenue**

**Chart to billing time reduced by 17%**

**Charting and review time reduced by 20%**

**Lost charts eliminated**

*Presidiohealth works seamlessly with our ED physicians so they can focus on patient care. I have the confidence that our business and revenues are being optimized everyday.*

*- Peter Sullivan, MD*

## What can we do for you?

### MAXIMIZE

revenues for your practice through consistent charting performance, 'no-losses' chart tracking and transparent coding accuracy

### STREAMLINE

and simplify your work by coordinating communication for physicians, coders and managers

### EDUCATE

your physicians with intelligent reporting on coding productivity, quality and risk profiles

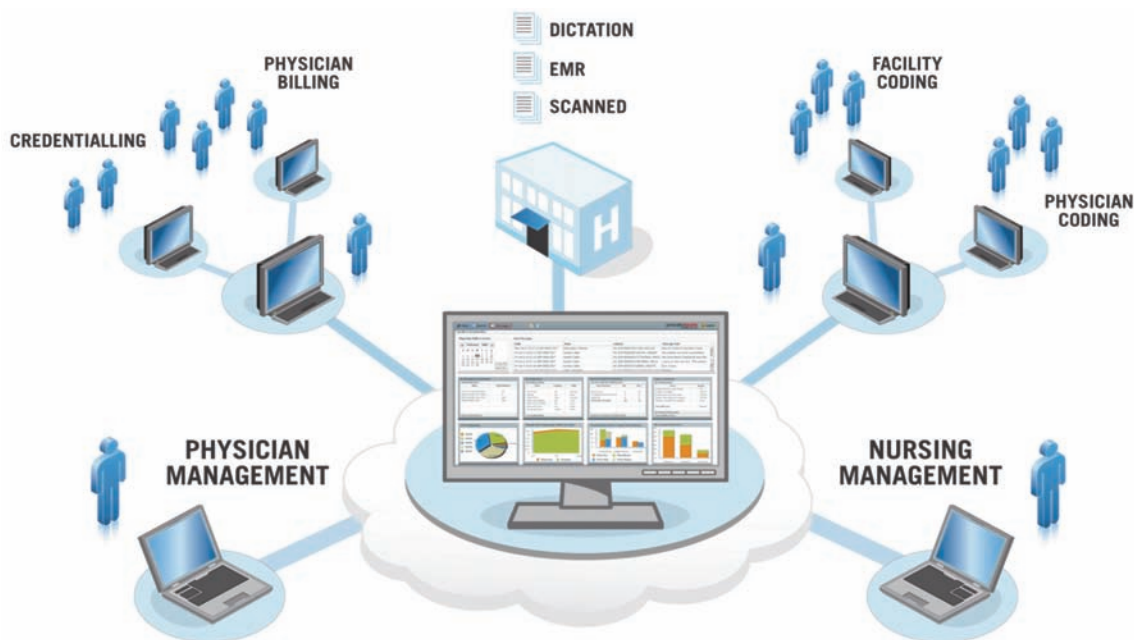

### INTEGRATE

all PerformMD services with 'best of breed' billing partners in a low cost turnkey platform

### ACCELERATE

chart completion, bill drop and collection times with managed physician-centric workflow

All the information you need, all in one place. It's *that* simple.

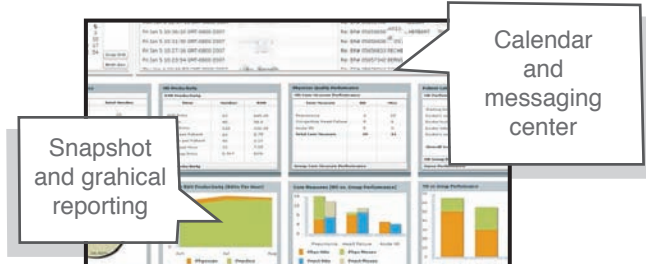

Don't just work harder. Work *smarter*.

Unified dashboard view for simple review of all scheduling, charting, quality and billing snapshot analytics:

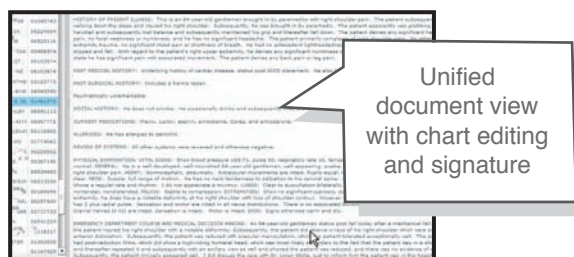

- Physician Calendar center
- Messaging Center
- Snapshot performance reports

#### Home Dashboard View

Integrated messaging center that streamlines secure communication between all members of your practice management team

#### Document Workflow

Actionable coding feedback and education that delivers real, ongoing results to your bottom line:

- Down-coding alerts and post-coding review tools
- See your coding feedback together with the chart
- Web-based focused education sessions

#### Coding Feedback View
